## PROJECTS

- **Coder HUB** 2024  
<https://coder-hub-beta.vercel.app>  
Own my project  
This project aims to build a web application where users can collaborate on editing code in real-time. Changes made by one user are reflected instantaneously on other users' screens. Support for popular programming languages (e.g., JavaScript, Python, Java, CPP).
- **IOT Base Plant Monitoring System** 2023  
Creating with my team members  
An IoT-based plant monitoring system is designed to collect real-time data from various environmental and plant health parameters. This data can be used to optimize plant growth, detect anomalies, and improve overall agricultural efficiency.
- **MMCC Website Clone** 2022  
<https://mmcc-edu-in.vercel.app>  
For Practice and increasing the CSS and JS skills.
